BARI (RAJA KA TALAB)

PROSPECTUS

If the face of India has to change ever then it cannot be attained without proper and quality education being imparted to everyone without any discrimination". . . .

When we mention education, it weaves a simple picture in our minds of a student learning and a teacher teaching, but education is beyond the classical paper-pencil-black board theory. It has evolved into the giant wheel that has many spokes such as personality management, time management, competing beyond boundaries etc. We, at **DE. MONTREAL CONVENT SCHOOL** have strived hard to propagate our age old theory to impart quality education at affordable price to the able scholars who seek excellence in their pursuit for an indomitable career.

DE. MONTREAL CONVENT SCHOOL just being the newest appendage; another venture to strengthen the early childhood education and focus more on middle school education for students to decide upon a career stream, which they can choose for themselves later in life.

Welcome to **DE. MONTREAL CONVENT SCHOOL** to experience world class education with a difference.

Chairman
PARDEEP SINGH

Today, the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society. Montreal Convent School** we provide an atmosphere to our students for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. This can only be possible in a holistic, student-centric environment. The talents, skills, and abilities of each student need to be identified, nurtured, and encouraged so that he / she is able to reach greater heights. Students need to be provided with a platform to think, express, and exhibit their skills.

At **De. Montreal Convent School** our approaches to learning is child centric encouraging Activity based learning and inculcating a scientific temper and a spirit of free enquiry. In our curriculum the student is the primary focus and each child is involved in the learning process. We are constantly improving our teaching methodology so that it turns learning into combination of classroom study, research and scientific discovery.

While academic excellence is our major thrust, the school is also devoted to prepare the students for life, groom them to face the challenges of tomorrow, and encourage them to be socially relevant. We constantly endeavour to always live up to this ideology and inculcate this into everything we do, with the aim that we will be able to ensure that the children grow to their full potential, while constantly being groomed to pass out as men and women competent to bear responsibility in all walks of life.

The parents are the most strengthening power in moulding the future of children. Their consistent support empowers us to do more and more. I pay my gratitude to them for their faith in us.
